

COMMISSION IS HARD AT WORK

Seeks Solution For The Fixing Of The Rates Of Service Of Public Utilities.

MAKING THOROUGH INVESTIGATION

Appar To Be Inclined To Abide By Decision Of Cases By Courts Which Are Similar In Nature To The Question Now At Issue.

[SPECIAL TO THE GAZETTE.] Madison, Wis., Nov. 10.—The Wisconsin railroad commission is making a legal investigation of the importance of determining the policy of the state with reference to the fixing of rates for service of public utility companies. The purpose of the investigation is to ascertain what to allow in the making of rates over and above the amount necessary to enable the company to pay operating expenses and a fair return on the investment. This margin over and above the actual cost of the service, which actual cost is fixed by the value of the plant and the operating expenses, was suggested in a recent decision of the supreme court, holding that it was not enough to allow a company to make just enough to cover operating expenses and interest on money invested, but that a reasonably additional margin should be allowed in order to give room for extension, development, improvement and enlargement of plant and service. It appears that the railroad commission is inclined to follow this suggestion of the court, but the ascertainment of the exact limits of this additional margin of profit is a most difficult problem, to which the commission has devoted itself with unusual zeal. Opinions of the courts of the country on this point are conflicting and not definite enough to assist greatly in the making of the limits to be allowed for this new element, which is sometimes called intangible and sometimes designated the "going" value, meaning the value of a successfully established and operating plant over the value of a plant equally good and modern and costly, but which is only a material plant but which is not connected up to the houses of a community and operating. The most important and the first case in which arose the necessity of determining this intangible element of value of a public utility plant was that of the Madison Gas and Electric company, in which was involved the question of "going" value in a gas and electric plant. Then the same question with application to a water plant came up in the Appleton Water Works case, and again the question was presented, with application to telephone plant, in the Marinette Telephone company case. The engineers of the commission valued the Madison Gas and Electric plant as worth \$743,000 for the physical property, and J. L. Butler, attorney for the company, argued that an item of \$250,000 should be added to the physical value, as the value of the "going" business or good will. The commission has taken this point up with the leading attorneys of the country, selecting them all over the United States, and has gathered a great mass of briefs written by the most learned lawyers of the land. The commissioners are now engaged in digesting these opinions and it is expected that they will reach a decision about the first of January next, which will lay down this very important point with such reliability that it will be unlikely to be overthrown and will doubtless stand as the parent decision to be followed by other states.

MEET FOURTH TIME TO ELECT BISHOP

Three Men Previously Chosen Have Declined the Honor—May Elect Local Man.

[SPECIAL TO THE GAZETTE.] Washington, D. C., Nov. 10.—For the fourth time the Episcopal diocesan convention met in Trinity church today to elect a bishop of Washington to succeed the late Bishop Satterlee. Among those discussed for the honor are Rt. Rev. Sheldon M. Griswold, bishop of Salina, Kas.; Rev. Dr. Floyd Tompkins, rector of Holy Trinity church, Philadelphia; Rev. C. L. Shattuck of Springfield, Mass.; Rev. Frank DuMont, dean of the cathedral at Cleveland, Ohio, and Rev. Dr. H. Luleck of New York city. The three recent declinations of outside men elected to the bishopric has increased the talk of electing a local rector to the episcopate.

FIRST MEETING OF THE SUPERVISORS

ORGANIZED AT SPECIAL MEETING EARLIER IN YEAR.

ROUTINE BUSINESS TODAY

Question of Adoption of Revised Rules Discussed This Afternoon.

This afternoon at two o'clock the county board of supervisors convened for its first regular meeting. The organization of the board was accomplished at the special meeting held earlier in the year, so the board proceeded at once to unfinished business. Ten petitions of blind residents of the county for aid were referred to the committee on new laws. The Williams estate of Heloit having paid taxes on three lots, one of which they did not own, presented a petition to have the mistake remedied, which was referred to committee No. 1. The question of clearing title to a certain piece of land by a quit claim deed from the county was referred to committee No. 2 to take action and report as soon as possible as the owners of the land wished to raise a loan upon it. A request from Judge Rosa of the lot for the purchase of a typewriter for the municipal court in that city was placed on file. Superintendent Kilham's report as to the number of days that patients from the different towns had been at the poor farm was read and accepted. The bill from the city of Janesville against the county for the support of James McDermott while in the detention hospital was referred to committee No. 10. The claim of Green County against Rock county and their refusal to settle in the matter of Dave Griffith until the Green county claim was settled, was also referred to this committee. Judge Piffel for the Twilight Club then addressed the members of the board and in behalf of the club invited them to attend this evening's session when the Waterway Question is to be discussed. Rules Committee Supervisor Livermore of the special committee on new rules then read the rules as proposed by the committee and also a set of rules proposed for the care of the poor. The rules now in effect for the care of the poor were adopted in the 80's and are many of them obsolete. After considerable discussion as to when the rules should go into effect and what effect they would have on the committee appointed under the old rules, the report of the committee was adopted. The new rules do away with three of the old committees who had little or nothing to do and in their places are three new ones. Treasurer's Report. When the county treasurer's report is given it will show practically no bonded indebtedness, the balance in the hands of the treasurer on Nov. 1 being \$15,291.85. The record for the county fund for the past thirteen months is as follows: 1907, Nov. 1, \$27,982.69; Dec. 1, \$4,923.22; 1908, Jan. 1, \$2,140.25; Feb. 1, \$2,183.74; March 1, \$2,045.59; April 1, \$8,111.71; May 1, \$2,711.85; June 1, \$3,509.19; July 1, \$3,557.54; Aug. 1, \$3,215.50; Sept. 1, \$8,251.69; Oct. 1, \$8,251.69; Nov. 1, \$4,291.82. Average for the thirteen months, \$22,000.

BUCKS STOVE CASE WILL BE DELAYED

Compers and Morrison Are in Denver and Adjournment Will Be Asked.

[SPECIAL TO THE GAZETTE.] Washington, D. C., Nov. 10.—The case of President Samuel Compers, Secretary Frank Morrison and Vice President John Mitchell, all of the American Federation of Labor, and who are charged with contempt of court, was called today in the district supreme court. The case grows out of the labor officials by the Bucks Stove and Range company of St. Louis. Owing to the absence of President Compers and Secretary Morrison in Denver, where they are attending the annual convention of the American Federation of Labor, a further delay in the hearing of the contempt proceedings is likely.

FIRST OF ALL-BIG-GUN TYPE LAUNCHED TODAY

North Dakota First Of Dreadnaught Class Built For The United States Navy.

[SPECIAL TO THE GAZETTE.] Quincy, Mass., Nov. 10.—Into the waters of the Fox river, on whose shores several of the finest ships of the "new navy" have been built, there was launched today the front steel hull of what will be the formidable battleship North Dakota. The occasion was a notable one, as the North Dakota is the first United States 20,000-ton, all-big-gun battleship of the Dreadnaught type. Built by the Fore River Shipbuilding company, the big vessel is 60 per cent completed, and will be turned over to the Government in less than a year. The keel for the North Dakota was laid December 18 last, the date of the sailing of the Atlantic fleet on its globe-circling trip, and in her construction all the records for the building of American naval vessels have been broken. Named By North Dakota Girl. Shortly before the hour set for the launching, while the wedges were being driven in to lift the weight from the ground to the sliding ways, the naming party, led by Rear Admiral Bowles, president of the shipbuilding company, made its way through the crowd and ascended the launching stand. The sponsor, Miss Mary Benton, daughter of Col. John D. Benton of Fargo, N. D., received an ovation, as did also Governor John Burke and other members of the North Dakota party. The launch of the big vessel was entirely successful, and was witnessed by an immense crowd. When the word was given and the great mass of steel began to move majestically down the greased ways for the initial plunge into its native element, Miss Benton dashed against the prow a bottle of wine decorated with the national colors. As she did so she exclaimed in firm tones: "I christen thee North Dakota!" A great wave of enthusiasm swept over the crowd of spectators as the christening ceremony was performed. Down in the crowd and up on the stand, men and women waved hats and handkerchiefs, while thousands of shouts joined in the wild cheering which greeted the new queen of the seas. Shriill whistle blasts from the nearby factories and the fleet of tug boats assembled in the river joined in the chorus, and almost drowned the notes of the national anthem, valiantly played by the band. A Magnificent Battleship. The North Dakota is a sister ship of the Delaware, which is under construction at Newport News. The initial outlay for the huge battleship was \$10,000,000. Her guns alone will cost about a million. She will have a long forecastle deck, extending from the bow almost to the center of the ship. The ten twelve-inch guns will be arranged in five turrets, two to a turret, the forward turret being so located that the axes of its guns will be twenty-four feet above the water line, and just about this turret will be another, the barbette of which will be of sufficient height for the guns to clear the roof of the forward turret. About the break of the forecastle deck, and also situated on the axis of the ship, will be two more twelve-inch gun turrets, the guns of the forward turret in this pair firing over the roof of the after turret. Aft and near the stern will be the fifth and last of the big turrets. Naval men declare that no navy in the world possesses a ship of the Dreadnaught type in which the guns are better arranged. For repelling torpedo attack, the North Dakota will carry a secondary battery of fourteen five-inch guns. These guns are all to be mounted broadside. The vessel will be driven by turbines of 25,000 combined horsepower. These powerful turbines must drive the battleship through the water at the rate of at least twenty-one knots an hour, on the four-hours trial run, if the contract is to be fulfilled. The officials of the company confidently assert that they will be able to do this and go the government one better, making at least twenty-two knots speed. If this can be done it will be a record to be proud of, for it will eclipse the present world's record of the Dreadnaught, twenty-one knots, and that, too, for a considerably larger battleship. The length of the North Dakota is 510 feet and beam 85 feet. Her complement will consist of nearly 900 officers and men.

FIVE INJURED IN A HEAD-END SMASH UP

Racine the Scene of Bad Accident on the Chicago, Milwaukee and St. Paul Road Today.

[SPECIAL TO THE GAZETTE.] Racine, Wis., Nov. 10.—In a head-on collision between a switch-engine and a freight on the southwestern division of the C. M. & St. P. road this morning at the city street viaduct two locomotives were completely wrecked and five persons injured. The injured are Edward O'Brien, engineer of the switch-engine, head and breast cut; Walter McFarland, fireman of the switch-engine, leg badly scalded and bruised about the head; Harry Woodman, engineer of the freight, and L. J. Brumelton, fireman of the freight. Carl Peterson, while watching the wreck, fell from the bridge 30 feet. He had his ribs broken and was injured internally. All the trains on the division were delayed for hours. It is understood the accident happened because of a misunderstanding of orders.

GREAT MINOR LEAGUE ASSOCIATION MEETS

National Association of Baseball Clubs Begins Annual Meeting in Chicago.

[SPECIAL TO THE GAZETTE.] Chicago, Ill., Nov. 10.—Minor league baseball owners and patrons will be particularly interested in the annual meeting of the National association of baseball clubs, which began at the Auditorium Annex today. There is some talk of redistricting the minor league territory and the matter may be discussed at the present meeting, though it is not at all probable that any action toward redistricting will be taken. There is no war talk this year and all indications point to a harmonious session. The reelection of President Pat Powers is assured.

LISBON SHOCKED BY NOTED MAN'S SUICIDE

Leader of the Republicans Taken His Own Life Rather Than Kill His King.

[BY ASSOCIATED PRESS.] Lisbon, Nov. 10.—The suicide of Alberto Costa, one of the most prominent of the republican leaders, here today created a tremendous sensation. It is believed the Black Cross society had selected Costa by lot to kill the present King, Manuel, and that Costa preferred to kill himself to committing this deed.

IDENTIFY WOMAN AS WIFE OF DRUGGIST

Tried to Secure Money From Mrs. Phipps on Threat of Dynamiting Herself and Children.

[BY ASSOCIATED PRESS.] Denver, Colo., Nov. 10.—The woman who attempted to kill herself and Miss Helen Phipps, daughter of Mrs. Genevieve Chandler Phipps, and two children, after her failure here to extort twenty thousand dollars from Mrs. Phipps, was identified today as Mrs. Allen Reed, wife of a druggist in this city. She is believed to be insane.

CAR CRASHED INTO BARB WIRE OFFICE

Yesterday Afternoon and Employees Were Given a Bad Scarce—Broken Rail Was Cause of Accident.

Thrown off the track by a broken rail on the curve at the corner of Holmes and River streets, an overloaded freight-car crashed into the west wall of the Janesville Barb Wire Co's frame office structure, yesterday afternoon, taking the entire wall off its stone foundation. The office and shipping crew, fearing that the entire train of three cars and locomotive were going through the building, made a quick rush for open air. The section crew was called to the scene at once to replace the broken rail and another crew started today to rebuild the wrecked office. The car that did all the damage was heavily loaded with barbed wire.

CHICAGO REUNION ON NOVEMBER 30

600 Former Residents of Janesville Expected to Gather at Rev. Jenkins Lloyd Jones' Church

Monday evening November 30, is the date set for the reunion of former Janesville residents who have taken up their abodes in Chicago and the parlor of the Lincoln Center church of which Rev. Jenkins Lloyd Jones is pastor, will be the scene of the banquet and speeches. Fred G. Munn, chairman of the arrangements committee, has a list of 600 people, most of whom have signified their intentions of being present. The attendance may reach 700. Addresses will be delivered by George W. Peck, Judge Tuttle, and others, and the entertainment will conclude with stereoscopic views of Janesville and its environs.

TAFT'S ELECTION IS CAUSE OF THE WORK

Plant of Lake Superior Iron and Chemical Company Resumes Operation After Months of Idleness.

[SPECIAL TO THE GAZETTE.] Ashland, Wis., Nov. 10.—The plant of the Lake Superior Iron and Chemical Co., which has been shut down since the middle of last May will reopen November 19th. It employs several hundred men in the manufacture of pig iron, wood alcohol and acid, and the 120' chimney kilns will be re-lighted within a week.

NEXT LEGISLATURE WILL DECIDE LAWS

The Division of the Inheritance Tax Between State and County to be Discussed.

[SPECIAL TO THE GAZETTE.] Madison, Wis., Nov. 10.—One of the important subjects to receive consideration by the next legislature will be that of readjusting the division established by the present law of inheritance taxes between the state and the counties making the collection. At present the county gets only five per cent of the taxes collected, and the state takes the remaining 95 per cent. Secretary of State Fear, through whose department this money flows, has come out as an advocate of a change which will give the counties a fairer share of this money. He observes that the largest portion by far of inheritance taxes come from Milwaukee county, which may be entirely natural but he also observes that in many cases it appears that his counties are not diligent in making the collections, perhaps for the reason that they get so little for the work, and he believes that if the counties got more of the revenue they would be more diligent in making the application of the law. The inheritance tax amounts approximately \$250,000 a year, but since the last fiscal year closed June 30, more than \$250,000 has been collected, indicating that the total collection during the present fiscal year will be greater than ever before.

REPLEVIN ACTION DISMISSED TODAY

Defendant Pays Cost and Suit for Trunk Was Dismissed by Judge Piffel.

On payment of costs by George Terry, a Rock County farmer, the replevin action brought against him by James Terry was dismissed this morning by Judge Piffel. James Terry had been working for George and wanted to leave, but Terry attempted to hold her trunk. Constable Dulla drove out in the country and got the trunk and when Terry found he had no case he paid the costs, the action was dropped and the trunk turned over to its owner.

HIS WISH TO DIE QUICKLY GRATIFIED

Aged Man Dies While Waiting Commitment to County Poor Farm.

Appleton, Wis., Nov. 10.—"I'd about as leave die as go to the poorhouse for the rest of my days, but I suppose that is all there is for me to do, so I'll go," said aged Herman Baehner at the police station yesterday afternoon a few minutes before he was found cold in death. Baehner, who was 75 years of age and who was worth between \$2,000 and \$3,000, had been taken to the station in an intoxicated condition. For years he had lived with a married daughter here, but suddenly tired of his home and upon the advice of the authorities had planned to go to the county poorhouse to spend the remainder of his days, agreeing to pay board. While the police were arranging to take him to the county institution they placed him in the rear room at the police station. A few minutes later when they called to take him to the poorhouse they found him dead. A physician was promptly called, who declared it a case of heart failure.

[SPECIAL TO THE GAZETTE.] Washington, D. C., Nov. 10.—Major General William P. Duvall and Brigadier General Frederick Funston, William H. Carter, Winfield S. Edgerly and William W. Woodruff, comprising a board of army officers appointed for the purpose, met today to make selections for detail of officers to fill vacancies occurring in the personnel of the General Staff. At present there are three vacancies, and seven more will occur next year.

JANESVILLE BOY MARRIES IN PUEBLO

Word was received today by Mr. and Mrs. A. Whaley, of the marriage of their son, Bert Whaley, in Pueblo, Colorado. The marriage occurred last Wednesday, Nov. 4, and the young lady whom he married was Miss Julia Greenwood, a Pueblo girl. The groom is well known and has many friends in the city and up to four or five years ago he lived here. The announcement of this marriage comes as somewhat of a surprise.

ESTIMATES ARE ALL ABOVE THE AVERAGE

American Farmer Can Rejoice in the Report of the Department of Agriculture.

[BY ASSOCIATED PRESS.] Washington, D. C., Nov. 10.—The Department of Agriculture today issued a preliminary estimate of the production of the principal crops of the United States showing that the corn, wheat, oats and other crops, representing approximately seventy per cent of the value of all the farm crops this year aggregate about three per cent greater than a year ago and 2.4 per cent greater than the average for the past five years.

INVESTIGATION STILL SUB-ROSA

POLICE COMMITTEE MADE NO REPORT ON OFFICER MASON.

AT MEETING OF COUNCIL

South River Street Clothing Merchants Must File Good and Sufficient Bond at Once—Other Business.

When the police committee of the common council, composed of Aldermen Richardson, Sheridan, and Watt, and instructed at the last meeting to investigate and ascertain what service the night patrolman on the West side is rendering for his pay, was called upon for a report by Alderman Watt last evening, Chairman Richardson asked for further time. Further time was granted. Officer William Mason who is the man most deeply concerned in this matter secured permission from Chief Appleby to remain on duty long enough to attend the council. As an illustration of the sort of service that have been doing in the police department, it may be stated that one of Mason's enemies, overhearing his request of the chief, sent a messenger to the council room to tell a certain member that Mason had said that he "was going to show some of those aldermen where they got off at," which statement, of course, was pure fiction and designed only to stimulate and influence the City Fathers' hostility to the patrolman.

Matters of Finance.
The city treasurer's report for October and the finance committee's report on bills were favorably passed upon. Authority was given to the mayor to borrow \$11,000 and credit the same to various funds as follows: 6000 lighting fund, \$5,000 school fund, \$5,000 lighting fund, \$1,000. Orders were drawn for the payment of the same. The registration and election clerk and inspectors. Direction was given that B. P. Crossman should be paid \$5, the balance due for the construction of the drinking fountain at the intersection of Cornelia and Glen streets. The treasurer was directed to transfer \$126.25 from the main out-let sewer fund to the general fund, the same being the amount paid inspectors of the main sewer outlet. Jesse M. Crandall's request that he be reimbursed to the extent of \$16.16 for tax on alleged to have been unjustly collected from him was laid on the table. A resolution was passed directing the mayor and clerk to range for and sell to the highest bidder a parcel of land of five and one-half acres, more or less, in the city of Janesville, to cover such cost of the improvements on St. Lawrence Ave., \$468.50—us property owners had not elected to pay at once. Notices of election to pay from the same locality were accepted. The clerk was directed to draw on the treasurer in favor of George & Company, in the sum of \$29.30, payable from the fund of Sewer District No. 11 for the laying of a sewer on Glen St. from East street to a point opposite the drinking fountain.

Petitions and Reports.
Further time was granted the fire and water committee for the consideration of a petition from the Janesville Bar-B-Q Co. for a fire alarm box at the corner of River and School streets. The municipal clerk reported for October, showing that fees, fines, and penalties amounting to \$94.67 had been collected, was accepted. Likewise the report of the board of education showing that orders had been drawn to cover the payrolls for September and October and other expenses amounting to \$9,830.91. Chief of Police Appleby's report for October, which was laid on the table, showed that 110 arrests had been made for the following offenses: larceny 6, larceny from the person 1, burglary 1, carrying concealed weapons 2, insanity 1, assault 1, and drunkenness 10. Twenty-three prisoners were taken to court and 87 discharged. Arrests were accredited to the various officers as follows: Appleby 7, John Brown 9, Manning 21, Mervin 18, Champion 9, Mason 14, S. Brown 15, and Dull 2.

Plumbers Called to Time.
Ald. Buchholz called attention to the unspeakable condition in which plumbers had left the streets in numerous instances and introduced an order directing the street commissioner to serve notice on them to restore the surfacing above their excavations to proper condition within 10 days. If the order is not complied with, the city is to do the work and charge the cost against them. The petition of Dr. P. B. Barnsworth and 24 other Court Street residents, asking that that thoroughfare be repaved before winter, was laid on the table. The street commissioner was directed to clean the gutters in the Second ward. In response to inquiries regarding the condition of the steam roller, Mr. Bennett said that the machine was working as clean as a whistle except for the fact that owing to the large amount of time in the water hours, the small injectors frequently become clogged and had to be taken out and cleaned every two days.

Want \$1,100 Damages.
From statements to the aldermen, made by City Attorney Maxfield during the recess, it develops that a New York leaf tobacco firm has commenced an action against the city for \$1,100 damages for 17 cases of tobacco stored at the T. E. Welsh warehouse at the time the Pave Point crossing was flooded a year ago last summer and alleged to have been totally or partially ruined. Just how any such case can be made to stand up against the city at this late hour remains to be seen.

Bond Must Be Forthcoming.
Some weeks ago the Royal Clothing Co. (Edward H. Hilske) which had opened an establishment on South River street was required either to pay a transient merchant's license or furnish a \$500 bond, as a pledge of good faith and intention to remain permanently in business here. The bond was produced, signed only by one surety instead of two, as required, and that one an unknown Chicago party. The attention of the council was called to the matter last evening and Mayor Heddes stated that he would serve notice on the firm today to provide a proper bond at once.

Yield of Jamaica Ginger.
An average yield of ginger in Jamaica is about 2,000 pounds an acre.

MUMMY AND HUMMING BIRD AT THE MYERS

Old Subject Was Theme of Play Which Pleased Fair-sized Audience.

Last evening at the Myers theatre the old story of the busy husband and the loving wife, who hungering for affection she is not shown in her own home, finds its outlet, was set forth in "The Mummy and the Humming Bird" with Mr. W. A. Whitecar in the leading role.
Lord Lumley, Mr. Whitecar, while loving his wife with all his heart, is so badly engaged in his work and experiments that he does not show his wife the affection he has for her. Thinking she is no longer loved she turns in despair to Signor D'Orelli, an Italian, and he almost persuades her to run away with him.
Giuseppe, an Italian organ grinder, whom Lord Lumley befriends, reveals the story of D'Orelli's past and Lumley's friends finally awaken him to what is going on. Lumley rescues his wife and forgives her before she has taken the final step and puts Giuseppe on the track of D'Orelli, the latter having ruined Giuseppe's home.
Mr. Whitecar played the less dramatic parts of the play very well and portrayed the unemotional busy man in a very clever manner. In the climax of the play, where he forgives Lady Lumley, he is somewhat weak. The play itself is rather disappointing, in that the climax is rather a let-down than a climax.
Mr. Whitecar is supported by a capable company.

GYPSY TRAIL TO BE GIVEN IN BRODHEAD

Presbyterian Society with Cast of 35 to Give Exhibition in Brodhead.

Brodhead, Nov. 10.—"The Gypsy Trail," which has been given with such marked success in Monroe, under the direction of Mrs. N. B. Woot, is to be presented in Brodhead on the evening of November 20, under the auspices of the Presbyterian society. There are thirty-five in the cast which includes several Brodhead people.

George C. Wooster returned on Friday last from a trip to Rockford, bringing with him a bride. The announcement came as a surprise to his many friends, who had no intimation whatever of the affair. All will wish he and his bride much happiness. Mr. Wooster is an old resident here whose first wife passed away some fifteen months since. He has many grandchildren. We understand his bride is also possessed of a family.

Northwestern Road.
The water tower at the passenger depot was put up yesterday and today the binding strips are being put around it.

Five cars on an extra train through here went off the track last night about six o'clock. The accident happened in the old yards on the new track which was put in. No defect in the laying of the track or the wheels of the cars could be found and the cause of the accident is a mystery. The cars on the head end of the train were the ones that went off.

Engineer Lewis is laying off on 528 and 529. Engineer Schoenberg is relieving him.

Engineer Talmadge has returned to work. Engineer Wilson, who relieved him, went on the extra board.

Engineer Watson and Fireman deadheaded home to Fond du Lac last night.

Firemen Connors and Page are on the extra board.

There was one stock train through here today and two last night.

Engineer Reed and Mayor went south on 528 last night on account of crews resting.

Engineer 619 is in the house for repairs.

Paul Ordelich has returned to work at the roundhouse.

KICKER'S KOLUM

Milwaukee, Wis., Nov. 7.—Editor Janesville Daily Gazette: The Reverend T. P. C. criticism of Christian Science as published in your good paper of Oct. 26th, has just come to my notice. I regret that the reverend gentleman should make an otherwise kindly discourse by such unfeeling and untruthful statements. The facts are exactly contrary to his assumptions and deductions. More pain has been banished, more suffering relieved in the last forty years through the benign influence of Christian Science than through the efforts of all the clergymen in the Christendom combined since the fourth century, when the healing power departed from the Christian church and men began to divide anew the seamless robe of Christ; saying this part of his commandment was to continue in force and that part was to be put on the shelf.

By whose authority may I ask was the command to heal the sick and preach the Gospel divided? Certainly there is nothing in the New Testament to indicate that one part of the command was more important, more binding, more to be heeded than the other.

I trust, dear editor, that you will be kind enough to set your readers right on this subject, by giving this space in your columns.

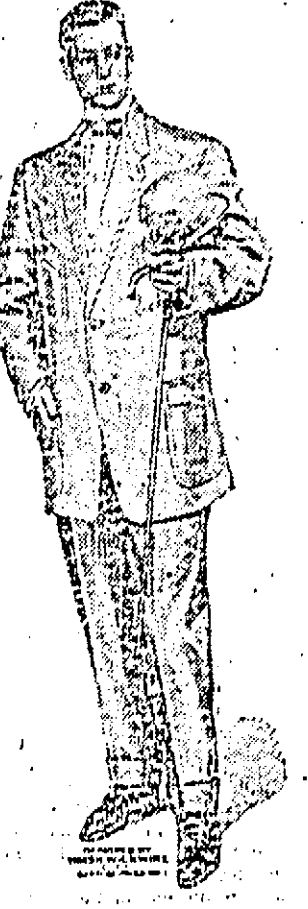

Yours respectfully,
JAMES PHILLIPS,
Christian Science Committee on Publication.

Cat Falls on Pedestrian.
An unusual kind of accident occurred a few days ago in Paris. A cat fell from a second story window in the Rue Daubigny, on the hat of a woman who was passing. The cat clawed the woman's face and destroyed the sight of one of her eyes.

FARMERS QUIZZED

Commission on Country Life
Begins Its Hearings.

PRESIDENT HIGHLY PLEASED

Tells Chairman Bailey He Considers
Appointment of Investigating Body
One of His Best Pieces of Work—
Maryland Men Heard.

Washington, Nov. 10.—The commission on country life held its first hearing Monday at College Park, Md., and then called on President Roosevelt. He was highly pleased with the work already done by the commission and told Prof. L. H. Bailey, its chairman, that he believed the appointment of this investigating body was one of the most important of his public acts.

A gathering of representative Maryland farmers was present at the first hearing. The only absent member of the commission was Dr. Walter R. Page, who joined the commission in Richmond, where a hearing was held Tuesday. There were no set speeches, the various farmers present being asked to express their opinions on any subject of general interest to farm life.

Typhoid a Farm Disease.
Dr. C. W. Bailey, who was present as a representative of the public health and marine hospital service, declared that typhoid fever is essentially a farm disease in the southern states. The discussion brought out the necessity of better sanitary control in country districts.

Among the other topics discussed were the need of rearranging the curriculum of country schools with a view to making them of more direct practical value to the farmer; the effectiveness of the rural church; parsonage post; good roads and the formation of farming institutions; small local insurance companies and co-operative and buying agencies. The general consensus of opinion favored all these.

Data from Thousands of Farmers.
Prof. Bailey conferred with Dr. S. N. D. North, director of the census, as to the tabulating of the numerous replies which are being received to the 600,000 circular letters sent out by the commission to farmers all over the country, already 6,000 replies have been received.

C. J. Blanchard of the reclamation service has been appointed to go with the commission as business manager, and Dr. E. W. Allen of the office of experiment stations as secretary.

SELECTING A JURY TO
TRY RAY LAMPHEREState is Soon Satisfied with Venue-
men—Hearing of Evidence Will
Begin Speedily.

Laporte, Ind., Nov. 10.—It is probable the hearing of evidence in the trial of Ray Lamphere for murdering Mrs. Belle Guinness and her three children will begin Tuesday afternoon, for the state Monday soon found 12 venemen whom it considered fit to serve on the jury.

The 12 men with whom the state was willing to trust the case were: Henry Mill, retired farmer; James Emory, farmer; Andrew L. Ames, farmer; Charles Schlaak, merchant; William Grey, farmer; Charles F. Nelson, farmer; Charles Travis, retired farmer; John Bentz, farmer; V. W. Bartholomew, hardware dealer; L. B. Collins, farmer; O. L. Small, farmer; E. R. Hart, retired manufacturer.

During the examination of the venemen by Attorney Worden of the defense he challenged Mr. Ames and Mr. Small, whose answers to the questions as regards the death of Mrs. Guinness and their opinions as to Lamphere's guilt or innocence were not satisfactory to him. Both were excused for cause.

Those examined by the defense and who appear to have been perfectly satisfactory are Charles Nelson, Charles Schlaak, V. W. Bartholomew and Henry Mills.

Attorney Worden's questioning touched whether the venemen had formed an opinion on the death of Mrs. Guinness and whether they had reached any conclusion as to the guilt or innocence of Lamphere. Those accepted by the state all favored capital punishment, if the evidence warranted, while those so far accepted by the defense stated that, although they had read much on both sides of the theory, they had formed no opinion as to whether Mrs. Guinness was dead or alive and had no fixed opinion as to whether Lamphere was guilty or innocent.

To Bypass Florida with Canal.
Columbus, Ga., Nov. 10.—The project of cutting the peninsula of Florida in two by an east and west ship canal connecting the Atlantic ocean and the Gulf of Mexico was the leading question Monday before the convention of the Gulf Coast Inland Waterways association in session here. Senator-elect D. U. Fletcher of Florida outlined this plan to the convention. It is estimated the canal will cost \$50,000,000 and that, including the traffic from Mexico and Central American countries, 60,000,000 tons would pass through the canal annually.

SHOOTING DOUGLAS SHOTS MAN.

English Lord May Have to Face Mur-
der Charge.

Winthrop, Man., Nov. 10.—Lord Sholto Douglas, brother to the present marquis of Queensbury, is held in the provincial jail at Nelson, N. C., and will probably have to face a charge of murder. Last week Sholto went shooting, and upon his return home found his house at Creston, N. C., occupied by an ex-officer of the British army named Rowland. He ordered him to leave but Rowland would not do so, whereupon Sholto emptied his shotgun at short range into the back of the head and neck of Rowland. The injured man was removed to a hospital, where he is now lying in a precarious condition.

Hayes and Dorando to Race.
New York, Nov. 10.—John J. Hayes, winner of the Marathon race at the Olympic games in London last summer, has signed a contract, it is announced, to meet Pietro Dorando, the Italian runner, who was half carried and half pushed across the tape in front of the American and was disqualified because of this assistance. The agreement which Hayes has signed calls for practically a re-run of the event in Madison square garden, this city, on Wednesday, November 25. It is stipulated that the full Marathon distance—26 miles, 385 yards—be run.

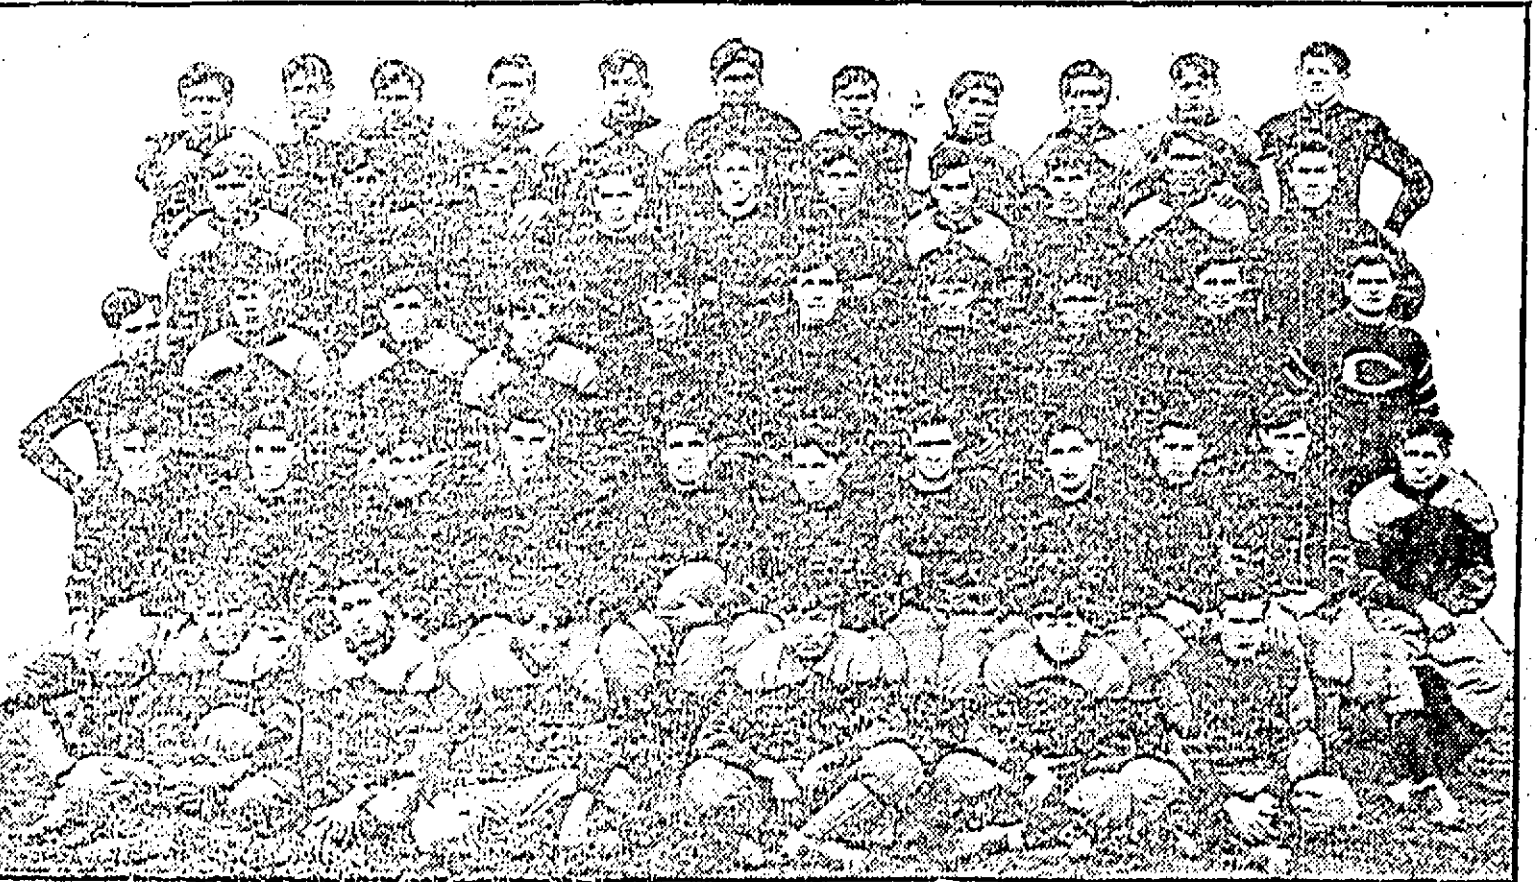

Kaiser to Ride in Airship.
Friedrichshafen, Nov. 10.—Emperor William, it is expected, will make an ascent in Count Zeppelin's airship Tuesday afternoon, but no official announcement to that effect has been made. Count Zeppelin received a telegram from the emperor stating that the war ministry, upon the advice of the specially appointed commission of experts, have decided to buy the Zeppelin airship.

Two Drowned While Hunting.
Minneapolis, Minn., Nov. 10.—Charles Kiehl, 17 years old, son of Joseph Kiehl of this city, and John Conrady of Chicago were drowned while hunting in Pelican lake, Wright county.

Supposed Forger Arrested.
San Jose, Cal., Nov. 10.—A man claiming to be A. B. McKenzle, the largest seed grower in Canada, was arrested here Monday on suspicion that he is T. St. G. Fayster, wanted for forgery in Chicago and Milwaukee, N. D. He was attempting to cash a draft in the name of A. B. McKenzle when arrested.

Presidential Elector Indicted.
San Francisco, Nov. 10.—The federal grand jury has returned indictments for land fraud against D. W. Downell, a Republican presidential elector; J. D. Ganger, John Gilpin and Rex F. Dexter, all prominent residents of Shasta county.

TARIFF REVISION
The tariff commission, appointed by the last congress, has been busy investigating conditions, both at home and abroad, and a special session will be called soon after the 4th of March next, to hear the report of the commission, and to take up the work of revision.

Tinkering with the tariff is always a delicate proposition, and the long era of continued prosperity which the country enjoyed from 1896 until near the close of the year 1907, is largely due to the fact that the tariff was left alone.

It is not surprising that under the stimulus of discovery and invention, and the tendency toward concentration in all lines of business, that abuses developed and monopolies in some lines became burdensome.

In casting about for some agency responsible for these changed conditions, the tariff was discovered and a popular demand soon developed for its revision. The nation prevails that certain industries are overprotected, and that duties on foreign-made goods should be reduced so that they may be brought in to compete with American products.

The experiment will doubtless be tried, but it is a delicate proposition to handle because so many interests are affected. Loyalty demands that American labor and home industries receive first consideration.

Henry Clows, the New York banker, will deliver an address tomorrow in Indianapolis before the state bankers' association, in which he will have this to say:

"As to the tariff there is much to be said on both sides of the argument for and against protection, and it will be the subject of prolonged and heated debate in the special session of congress that will be called after the 4th of March next. The democrats will contend for a tariff for revenue only, and the modification and adjustment of the present high tariff accordingly, which would involve a heavy and radical reduction of duties; while the republicans will resolutely contend for upholding the time-honored principle of protection to American industries. It is their holy of holies.

"The heaviest political artillery is on the side of the republicans, and heaven is said to be on the side of the strongest artillery; but every proposed change in the tariff is sure to be warmly, and bitterly, contested. Many men, many minds, and every change actually agreed upon will be the result of a compromise in both houses of congress. And a lowering of the present tariff is absolutely necessary to the welfare of our manufacturing interests and our foreign trade.

"Protection under it has very largely ceased to protect owing to the excessive competition it has encouraged here. But the reductions made in it should be gradual, and ample time—say, three to six months—should be allowed importers to dispose of their stocks of raw and manufactured merchandise imported under the existing tariff.

"Radical reductions would be disturbing to trade and should be carefully avoided. There is safety in making haste slowly. Let us preserve the middle course—the golden mean.

"The effect of a judicious lowering of the tariff to one of only moderate protection, would be to give our manufacturers cheaper foreign raw materials, and so enable them to sell their manufactures at lower prices than they can now, both at home and abroad.

"Thus our export trade to the orient and South America would be stimulated by our being enabled to compete there with England, Germany and other European countries where labor is comparatively much cheaper than here."

"The home market is more important than all the foreign markets combined. The first consideration is to preserve this market by keeping its labor fully employed.

"The decision of Judge Grimm, in the much-discussed Brown-Appleby case, appears in another column, and should be carefully read by the taxpayers. This decision is an endorsement of the verdict of public opinion, rendered by the people when the case first appeared on the surface, and the sensible thing for the council to do now, is to accept it gracefully, pay Marshall Appleby what the city owes him, and give him the recognition to which he has long been entitled.

"The force of a double-headed police department has ceased to be amusing. It has crippled the force in many ways and demoralized its efficiency. The decision of the court settles the question of technicalities for which the council has been waiting and clears the atmosphere. The people have occasion to rejoice.

"The railroads are again busy and little else is a thing of the past. The Chicago and North-Western company has cleared the ground for their \$20,000,000 terminal in Chicago, and the new building will soon be under way. Prosperity is in the air as a wholesome tonic and all lines of business are bracing up.

"The prolonged silence of the Nebraska statesman is ominous. When was he ever known to keep quiet so long before? The people are waiting to know how it all happened.

"The Standard Oil company is involved in another suit where a \$30,000,000 judgment is a possibility, but these excessive judgments are no longer popular.

"The State Teachers' association will discuss the pension question at their next annual meeting. Better discuss the salary proposition.

"Call him city marshal or chief of police, anything you like, but recognize his authority and pay his salary cheerfully.

"The prolonged silence of the Nebraska statesman is ominous. When was he ever known to keep quiet so long before? The people are waiting to know how it all happened.

"The Standard Oil company is involved in another suit where a \$30,000,000 judgment is a possibility, but these excessive judgments are no longer popular.

"The State Teachers' association will discuss the pension question at their next annual meeting. Better discuss the salary proposition.

"Call him city marshal or chief of police, anything you like, but recognize his authority and pay his salary cheerfully.

WILLIAM A. GRANT CHOSEN TO HANDLE CHINESE COIN ISSUE.

New York.—After a search over the entire civilized world, the government of the Celestial empire has come to New York to find a man with the fundamental requisites for the handling of the Chinese currency issue. That man is William A. Grant, whose business career has been focused on the bank note business.

Mr. Grant accepted the invitation and has signed a contract for five years. The Chinese government will pay the expenses of himself and family for the trip to China, and will provide for them a house in Peking, with servants, rent and supplies free. He left New York October 31 to catch the Manchuria, which is to steam from San Francisco for the Orient November 11.

Accompanying him as assistants, Mr. Grant will take L. J. Hatch and William Gilfill.

Public Credulity.

After making full allowance for the increased spending power of the masses, figures prove conclusively that notwithstanding the wide diffusion of knowledge, the spread of education and the raising of the standard of intelligence among the people, the apoplexy of the quick and the charlatan to the credulity of the public meets with a readier response than ever.—London-Hospital.

BEHIND THE MAN.

Blessings on the Maids who find their content and joy in being "Just Jimmie's wife."

Origin of Galvanism.

Galvanism owes its origin to Mmo. Galvani noticing the contraction of the muscles of a skinned frog, which was accidentally touched by a person at the moment the professor (her husband) was taking an electric spark from the machine. This hint was followed up by experiments.

a low price—a cheap price—is the principal argument used in selling a stove, and saving "you a heap of money" crops out many, many times in the talk, you can make up your mind that quality, durability and many other essentials have been sawed off to get that cheap price.

It costs money to make a good stove—to fit the doors and drafts so that it will hold fire and save fuel. As to the material, it can be bought just as cheap as desired, but only the best will wear and last. The famous Round Oak is the cheapest stove for you to buy; it has been tried and tested for years.

You will like it, for it burns any kind of fuel successfully.

It is an easily regulated as a lamp and will last a lifetime.

Look for the name "Round Oak" on the leg. It is necessary, for there are many imitations.

Here, Fritz, we see the most important feature on the Round Oak Stove. It is fitting the small ash pit or draft door in the bottom. This fits perfectly tight so the fire can be held all night, and all day, too, if desired, and the great point is it stays tight all its life—never leaks air or gets out of order.

CITY LOSES IN FIRST SKIRMISH

OF HANRAHAN & LINDQUIST TO
RECOVER \$13,000 FOR SEWER
EXTRAS.

SUPREME COURT DECISIONS

Give Janesville A Victory In Litigation to Compel St. Paul Ry. Co. to Pay for Sewer Construction.

Decisions in several cases of particular interest to Janesville people were handed down by the state supreme court this morning. In the case of Hanrahan & Lindquist vs. the City of Janesville the decision of the lower court, holding as irregular the appeal taken from the common council decision disallowing between \$13,000 and \$14,000 claims for sewer extras, was reversed and the case will have to be tried in the circuit court on its merits. The original claim was filed with the council by "Hanrahan & Lindquist, attorneys for M. J. Bonson," whereas the appeal to circuit court was taken by "R. T. Hanrahan and A. H. Lindquist." The sewer work in question was the first done here and was carried out several years ago. Joffe, Mount, Smith & Avery are attorneys for the plaintiff, Railway Company Loses.

Proceeding on the theory that its property, except that leased for commercial purposes, is exempt from general taxation, the C. M. & St. P. Ry. Co. appealed from the decision of the lower court holding it liable for assessments for sewer construction in districts 5, 6, and 11—near the freight depot on Main street, the passenger station on Union street, and property on Academy and Pleasant streets. Only about \$30 was involved here but the company has numerous other actions of the same nature pending in Milwaukee and other cities and wished to have the question passed upon. The supreme court affirmed the decision of the lower court from which the railway company appealed. It also reversed the decision of the lower court exempting a small piece of property where the Madison county yards are located, from which the city appealed, and the adjudication constitutes a complete victory for the municipality.

Other Cases.

Judge Grimm's decision awarding George Tallman some \$30 damages for the loss of a dress suit case left in the C. M. & St. P. baggage room over night, was affirmed.

The lower court's decision in the action of Lynch of Beloit vs. Joseph Ryan, a leaf dealer, for an accounting was affirmed on both appeals.

In the case of C. S. Jackson, trustee of the estate of the late W. T. Van Kirk, vs. Inman, brought to recover on a \$250 note which the defendant claimed to have satisfied, the decision of the lower court was reversed. The plaintiff lost the case in circuit court and appealed on the ground that certain evidence, taken under objection and relating to an alleged conversation between the defendant and the deceased, was improperly admitted. The high tribunal so held.

In the personal injury action of Rados vs. John Thompson & Sons of Beloit, a jury in the lower court awarded the plaintiff \$1,500 damages. The supreme court reversed this decision with directions to dismiss the case.

In the matter of the will of Herman Mueller, deceased, the decision of the lower court that the estate should not be charged with the costs of litigation carried on by the executor, was affirmed.

A reargument was ordered in the case of Mueller vs. Mayhew which was argued at the last term of the circuit court.

SCHOOLS TO CLOSE DURING CONVENTION

All Teachers in City to Attend State Meeting in Milwaukee Last of This Week.

All the public schools in the city will be closed on Thursday and Friday of this week and the teachers will attend the annual meeting of the state teachers' association. Teachers from the entire state will attend this convention and several thousand will be at the sessions.

Select Subject.

The question selected by the votes of the various schools in the Beloit college debating league is as follows: "Resolved, It is for the best interest of the United States to enlarge its navy by building three first-class battleships or their equivalent each year for ten years." The preliminary debate to decide on the three members of the J. H. S. team will be held on next Monday evening in the science lecture room. The judges have not as yet been selected. All students of the school who wish to may try for positions on the team.

BALDWIN CASE IS ON FOR RETRIAL

Was Taken Up This Morning by Court and Lasted Throughout the Day.

Following the decision in the Brown-Appleby case this morning the retrial of the case of Otto Baldwin vs. the Janesville Interurban company was taken up by the first jury case on the calendar. Baldwin was out of an interview with the conductor out in the country between Janesville and Beloit for not having a ticket. The plaintiff claims he had money to pay his fare and asks damages for suffering from exposure. At a trial before a jury in the February term a verdict of \$1 was rendered by the jury. The judge refused to allow the verdict and ordered a retrial, which occupied the court all day.

OBITUARY.

John Raymond Commons.

Yesterday afternoon occurred the death of John Raymond Commons, the three-year-old son of Mr. and Mrs. John Commons of North Jackson street. The family have the sympathy of their friends in their bereavement. The funeral will be held tomorrow morning at St. Patrick's church at nine o'clock.

WORD OF WARNING TO UNKNOWN MISCREANT

Persons Destroying Mail Boxes Subject to One-Thousand-Dollar Fine.

Residents in the Mt. Zion district in Johnston have been annoyed by persons who tear down four or five mail boxes on Halloween. These were replaced last night and complaint has been made to the postal authorities. For the benefit of those who do not know the law on the subject it might be well to remember that there is a thousand-dollar fine or three years in state's prison as a penalty attached to such actions, both in the city and on rural routes. This is a United States Government law and when Uncle Sam starts out he usually finds out who is guilty. A government inspector here today has the matter in charge and will investigate.

SECOND CONCERT OF APOLLO CLUB

Leland B. Hall, Head of U. of W. P. and Department, Delighted All Hearers with Recital Last Evening.

Members of the Apollo club enjoyed the second concert of the present season last evening, the offering being a piano recital by Leland B. Hall, who is at the head of the piano department of the University at Madison. Mr. Hall was happy in the arrangement of his program. It was largely made up of selections out of the beaten path. He played from Bach, Schumann, Brahms, Debussy, Faure, and Strauss-Tausig. Particularly enjoyable were the selections from Debussy and Faure. The latter he was obliged to repeat. At the close of the program, in response to persistent applause, he gave the Ballade in A flat by Chopin.

GOMPERS CHEERED

His Report Well Received by
Federation of Labor.

NO OPPOSITION IS APPARENT

President of Workers Warmly Dis-
cusses the Ducks Company Injun-
ction Case and Scores Congress and
Republican Leaders and Convention.

Denver, Col., Nov. 10.—That Samuel Gompers will be re-elected president of the American Federation of Labor without much opposition was made evident Monday, at the opening session of the federation's convention, by the cheers and applause that greeted him and that followed the reading of his annual report.

"The statement that there will be a big fight in the convention in regard to the action taken by President Gompers in the recent campaign will not be fulfilled," said John Mitchell, former president of the United Mine Workers of America and a delegate to the convention.

President Gompers' report was an accounting of the work performed by the president during the past year. At the outset he declared: "There must not be permitted to grow up or to be maintained a permanent army of unemployed."

The part of the report that touched on the Ducks Stove & Range Company's injunction case was frequently interrupted by applause.

He Demands a Free Press.

The stand taken by John Mitchell, Frank Morrison, and Samuel Gompers on the injunction matter was also applauded. Mr. Gompers said in part:

"It is impossible to see how we can comply fully with the court's injunction. Shall we be denied the right of free speech and free press simply because we are workmen?"

"Now it is the American Federation of Labor and the American Federationist which are enjoined from the exercise of the right of free speech and the liberty of the press. In the future it may be another publication, and this injunction will then be quoted as a sacred precedent for future and further encroachments upon the rights and liberties of our people. The suppression of freedom of the press is a most serious undertaking, whether in autocratic Russia or the Republic of the United States. It is because the present injunction and the contempt proceedings thereunder suppress free speech and free press that I feel it my duty to enter an emphatic protest."

Republican Leaders Scored.

"The president made an unwarranted attack upon me and upon the labor organization of the country."

"Speaker Cannon has packed committees not only against labor but against any other real reform legislation."

"Congress adjourned with the defiant declaration of one of the Republican leaders, James S. Sherman, that the Republican party is responsible for legislation or for the failure of legislation and that he and his party were willing to assume the responsibility."

"The report of our legislative committee reveals a tale of perjury to the commonwealth and in telling the truth perforce besmirches the name and history of a political party that found its embodiment and idealism in the martyred Lincoln."

"The Republican party adopted declarations for the enactment of a law that would legalize the worst abuse and perversion of the injunction writ, this in direct opposition to what we had asked."

WEDDING NEXT YEAR IN ITALY.

Abruzzi-Elkins Nuptials to Be in Rome or Turin.

London, Nov. 10.—The Daily Express asserts that the wedding of the duke of the Abruzzi and Miss Katherine Elkins will take place in Rome or Turin some time in 1909. The Express claims to have authority to state that the king and members of the royal family wish the marriage to be solemnized in Italy with state ceremonies, so that the nation may participate, as it is among the Italian people the bride will spend her life.

Logansport Man a Suicide.

Boston, Nov. 10.—It became known Monday night that Cloyd Gray Hersey, aged 25 years, of Logansport, Ind., a graduate of DePaul university and a Junior at the Boston University School of Theology, committed suicide by shooting himself through the brain at his room at the school last Friday night. The cause of the suicide is not known.

Marshall's Plurality 14,809.

Indianapolis, Ind., Nov. 10.—The count of the official returns at the secretary of state's office for governor was completed Monday afternoon. Thomas R. Marshall, Democratic candidate for governor, received a total vote of 348,849, and James E. Watson, his Republican opponent, 334,010, a plurality for Marshall of 14,839.

Dr. Thompson Injured by Motor Car.

St. Louis, Nov. 10.—Dr. David D. Thompson, editor of the Northwestern Christian Advocate, published at Chicago, was run down by an automobile at the intersection of Ludell and Doyle avenues Monday night, and seriously injured. He sustained a multiple fracture of the right arm and a nervous shock.

GOLF AND RIDING ARE
FILLING TAFT'S TIME

President-Elect in Training for Future
Duties—Going to Augusta
in December.

Hot Springs, Va., Nov. 10.—The continuation of mild weather will keep Judge Taft here until early in December, and he intends to put in the time playing golf and riding horseback to get in condition for performing his duties as president.

He has accepted the request of Miss Boardman of Washington, president of the National Red Cross, to attend the annual meeting of the society in Washington December 5. He expects to remain here until then. Although his plans have not been determined, it is his intention to go then to Augusta, Ga., to take a cottage and remain during the winter. The Taft family physician in Cincinnati has recommended the Georgia city as the ideal place for outdoor exercise during the winter.

There will be a general post-election conference Tuesday between Judge Taft and National Chairman Hitchcock. Mr. Hitchcock has been frequently mentioned as the probable postmaster general in the Taft cabinet, and while Mr. Taft has so far deferred taking up matters of state since the election, it is not unlikely that an understanding will be reached between the chairman and his chief.

The weather is mild and pleasant and Judge Taft Monday played his morning game of golf with Gov.-elect Draper of Massachusetts, and went riding on his favorite saddle horse in the afternoon.

National Committeeman Murphy of New Jersey, who is a guest here, was a caller at the Taft cottage.

NEW YORK POSTMASTER SHOT.

Stenographer Tries to Kill E. M. Morgan and Commits Suicide.

New York, Nov. 10.—Edward M. Morgan, postmaster of New York city, was wounded in the abdomen Monday morning by a bullet fired by E. H. Mackay, an eccentric English stenographer, who then committed suicide. Mr. Morgan was resting well at night and unless complications develop he will recover.

Mr. Morgan probably owes his life to the quick wit and bravery of his 14-year-old daughter Dorothy, who saw Mackay draw his revolver and struck it with her hand. This deflected the bullet, otherwise the postmaster would have been fatally wounded, for his assistant was at close range and fired four shots in all. The shooting occurred at One Hundred and Forty-sixth street and only a short distance from Mr. Morgan's home. He was on his way downtown at the time.

An investigation of the life and record of Mackay reveals that he was of a morbid nature and a former inmate of an asylum in Worcester, Mass. That his act was premeditated is made certain by a letter he left, but aside from a fancied grievance against Mr. Morgan and the post office authorities concerning the handling of his mail, nothing has come to light to indicate why he should have sought to murder the postmaster. His clothing when searched gave up between thirty and forty smokeless cartridges, a heavy stungshot, a knife with a four-inch blade and a class knife.

SLAYS WIFE AND HIMSELF.

Bloody Double Crime Committed by a Wichita Man.

Wichita, Kan., Nov. 10.—Oscar Huber Monday evening shot and killed his wife, shot at his mother-in-law, Mrs. M. A. Turner, then turned the revolver on himself and blew his brains out. His wife, who was killed instantly, held a four-months-old child in her arms and the weight of her body fell on the child, seriously and perhaps fatally injuring it. The shooting was the result of a family quarrel.

Huber was recently released from the county jail, where he had been confined for 18 months because he put dynamite on the Santa Fe railroad track north of this city and attempted to wreck a train.

Newspaper Folk Are Married.

St. Paul, Minn., Nov. 10.—Condo Hamlin, business manager of the New York Tribune, and Miss Pearl A. Terry, literary editor of the St. Paul Pioneer Press, were married Monday afternoon at the home of the bride in this city. Mr. Hamlin was formerly general manager of the Pioneer Press Company. Mr. Hamlin's first wife was Miss Leonora Austin, daughter of former Gov. Horace Austin of Minnesota. She is now connected with the Chicago Public Library.

Accidentally Kills His Son.

Calais, Me., Nov. 10.—Word was received here late Monday that the 14-year-old son of D. C. Rollins of St. Stephens, N. B., had been accidentally shot and killed by his father while deer hunting. Mr. Rollins stumbled when about to fire at a deer and his aim was diverted, the bullet passing through the neck of his son.

Dr. W. T. Bull Near Death.

New York, Nov. 10.—Dr. W. T. Bull, the eminent New York surgeon, who has been critically ill for several weeks, was reported as sinking fast Monday night, and fears were expressed that he would not survive many hours.

Dr. J. D. Todd Is Pardoned.

Jefferson City, Mo., Nov. 10.—Gov. Folk Monday pardoned Dr. J. D. Todd of Vernon county, who came to the penitentiary March 29, 1906, under sentence of ten years for killing Richard Wall at Richards.

We Have Humbled the Mighty Dollar in This Carnival of Bargains

We have taken heroic measure to make this sale the greatest and the most successful sale Janesville has ever known. If you can believe your eyes, come and see it. Don't take our word for it. Don't take anyone else's word for it. Be your own judge. Make us prove our advertising.

PRICE REDUCTIONS SO OUT OF THE ORDINARY AS TO MAKE ONE STAND AGHAST AT THE MARVELOUS DISPLAY AND PRICES. The one object of this extraordinary sacrifice is to force immediate reduction of our entire stock. Ordinary price reductions will not do the work. WE REALIZE THE FACT—PRICE IS THE MIGHTY MAGNET—to accomplish the desired end. Frank D. Kimball's name in connection with high-grade, dependable Furniture has been famous throughout this community for square dealing in high grade and honest goods. This Sacrifice Sale is backed by my reputation. We must reduce this stock. We must unload and turn this stock into cash regardless of sacrifice on our part as to losses, profits, value or cost. The prices we have placed on the goods will move them rapidly. This sale from start to finish will eclipse all attempts ever MADE IN THIS CITY OR ELSEWHERE. WHEN WE ADVERTISE BARGAINS WE MEAN IT IN THE TRUE SENSE OF THE WORD; STERLING VALUES IN OUR REGULAR STOCK. NOT THE KIND USUALLY BOUGHT FOR SO-CALLED SPECIAL BARGAIN SALES. Not a few pieces of undesirable Furniture, BUT RADICAL REDUCTION ON EACH AND EVERY ARTICLE IN STOCK. The wide-awake, economical buyers of Janesville and this community can not afford to miss this sale. A tremendous slaughter of modern merchandise such as Janesville never has seen. THIS IS NO SUTTERFUGE, BUT A BONA FIDE REDUCTION ON EVERY DOLLAR'S WORTH IN STOCK.

JUST A FEW HINTS OF WHAT YOU
MAY EXPECT TO FIND

NOTICE!

This entire stock will be marked in plain figures. Look for the YELLOW cards. Read them and heed them. All over the store are bargain spots where there are rich pickings for thrifty people. Come expecting great things; you will not be disappointed. We do as we advertise. Our "say so" is our "do so." We assure each and every purchaser absolute satisfaction. We guarantee every article, and every statement here made. And we will take back, exchange or refund your money on any purchase unsatisfactory whatsoever. Every article has been re-marked so that you see the actual saving made. Sale will positively open Thursday, November 12, 1908, 9 a. m. Don't fail to be here if you value money or need furniture. Nuff-said.

Our Guarantee!

Remember, every article offered in this sale is absolutely brand new and guaranteed as represented. Your money back if you are not satisfied. That is our business method, and that is how we built up our business to its present enormous proportions.

APPLEBY WON IN
POLICE MUDDLE;
DECISION TODAY

JUDGE HOLDS CHAPTER 61, LAWS
OF '07, APPLIES TO CITY.

COMPLAINT WAS DISMISSED

Question of Name of Police Head Im-
material—Board Need Not
File Bonds.

At nine o'clock this morning, im-
mediately after the opening of court,
Judge George Grimm announced his
decision in the quo warranto proceed-
ings brought by John Brown against

CHIEF OF POLICE G. M. APPLEBY

George Appleby. The judge dismissed
Brown's complaint with costs, which
is a complete victory for the defend-
ant.

In his decision the judge holds that
chapter 61 of the Laws of 1907, pro-
viding for a board of police and fire
commissioners who shall elect the
chief of police and the chief of the
fire department, applies to the city
of Janesville. The original act, chap-
ter 217 of the Laws of 1879, which
brought into existence the fire and
police commission, was held to apply
to all cities whether incorporated un-
der the general charter provision of
the statute or under a special act.
The language of this more recent
law, which is an amendment of the
prior law, was used by the legislature
with the same intent in view and ap-
plies to all cities.

The use of the words "chief of po-
lice" in the later law is immaterial.
The head of the police department is
intended by whatever name he may
be called in the various cities.
The opinion holds that all the mem-
bers of the commission were properly
appointed. Four under the old law
were appointed orally and their ap-
pointment confirmed by the council.
Simpson, under the new law, was ap-
pointed in writing. It was not neces-
sary for any of the board to file a
bond and this question is immaterial.
The entire opinion of Judge Grimm
is as follows:

"I desire to express my apprecia-
tion of the diligent efforts of the dis-
tinguished counsel for both parties to
present to the court the decisions of
higher tribunals bearing upon the is-
sue in this case, as well as for the
able arguments accompanying the
same. Such conscientious labors are
always a great aid to the court in
arriving at a correct conclusion.
Many of the arguments advanced are
deserving of extended comment; and
while I shall refrain in this opinion,
which is intended to be brief, to re-
view them all, I will say that I have
given them due consideration in ar-
riving at my conclusion.
"The controlling question in this
case is whether chapter 61 of the laws
of 1907, enlarging the powers and
duties of the board of police and fire
commissioners, applies to the city of
Janesville.

"In the act of incorporation of this
city the legislature declared that 'No
general law of this state contraven-
ing the provisions of this act shall be
considered as repealing, amending or
modifying the same, unless such
purpose be expressly set forth in the
law' (Chap. 10, Sec. 16). The general
statutes declare that 'all the laws
contained in these revised statutes
shall apply to and be in force in
each and every city and village in the
state as far as the same are applica-
ble and not inconsistent with the
charter of any such city or village;
but when the provisions of any such
charters are at variance with the pro-
visions of these revised statutes the
provisions of such charters shall pre-
vail unless a different intention be
plainly manifested.' See, 4386 R. S.;
and the next succeeding section is
substantially to the same effect.

WOMAN DESCRIBES
CURE FOR ECZEMA

(From Chicago Record-Herald.)

Here is a simple treatment for skin
diseases, such as salt rheum, eczema,
tetter, etc., that is so good that I feel
I ought to make it public in your col-
umn. Dissolve a teaspoonful of pure
powdered elctrox in two tablespoons of
hot water and bathe the diseased skin
with the warm solution 20 minutes at
a time twice a day. The only precaution
is to be sure to get the pure drug, just
as it comes from the chemical works,
in small sealed packages, and make
the solution fresh each time it is to be
used. It must be applied fresh and
warm. Any good drug store has this
well-known chemical.
"It seems almost too simple, but
the best things are always simple. I cured
my husband of a very bad case of eczema
on the leg, and my little boy's ring-
worm with it; also a very dear friend
who had tetter on her hand. It took
up the eruption in a few days and stops
the itching at once. A friend of mine
who got the prescription from a fam-
ous skin specialist gave it to me. It
is a priceless discovery and I hope
you will publish this.
MRS. R. H. BURNHAM.

"It is obvious therefore that, un-
less the intention be plainly manifest-
ed by chapter 61 of the laws of
1907 that the provisions shall apply
to cities incorporated under special
charters, they do not apply; and the
intention must be to the intention of
the legislature when adopting such
act.

"The original act (Chapter 217, laws
of 1879) creating a board of fire and
police commissioners, of which chap-
ter 61 is in effect an amendment, pro-
vided that the act should apply to all
cities of the second and third class
'whether such cities are incorporated by
special charter or by the general
laws of the state.' The legislative in-
tention thus clearly expressed over-
came all contravening charter provi-
sions, and the act was accepted as
operating on cities of the third class,
named, however incorporated. Under
the board of police and fire com-
missioners of the city of Janesville
was organized and proceeded to act
up to the time of the adoption of the
amendment of 1907. Under the origi-
nal act the board consisted of four
members, not more than two of whom
could belong to the same political
party when appointed. Section two
of that act provided that 'no person
shall be appointed to any position,
either on the police force or in the
fire department in any such city, ex-
cept with the approval of the board.'
Such was the situation when chapter
61 of the laws of 1907 was enacted.

"It is now contended by plaintiff
that because of the change in the
phrasing of section one of said
chapter 61, relating to the application
of the act, the whole of the police
board law ceases to be operative in
the city of Janesville. The specific
change referred to is as follows:
That whereas the original act, in de-
fining the extent of its applicability,
employed this language, 'whether such
cities are incorporated by special
charter or by the general laws of the
state,' the amending act employs
this language, 'in all cities of the
second and third class, however in-
corporated.' Which of the two de-
finitions is the proper one? The first
exclusively embraces all cities within
the classes named where there were
two ways in which cities in this
state could have been incorporated
prior to the constitutional amendment,
that is either by special charter or
by the general laws, and there is but
one way now. If the first defini-
tion is correct, the second defini-
tion, in what respect is the second defini-
tion 'all cities of the third class,
however incorporated' narrower? To
the unbiased mind there can exist no
distinction between the scope of the
language employed in the two acts
and it is the duty of the court to ad-
here to the plain and ordinary mean-
ing of the language and give effect to
the legislative intention accordingly. The
power of the legislature to make the
act applicable to cities incorporated
under special charters is beyond dis-
pute. The charters are themselves
acts of prior legislation and possess
no elements of sacredness or control-
ling force over subsequent legisla-
tures, and it is entirely competent
for the legislature to change them,
without even the consent of the cities
affected, in a manner consistent with
the constitution, or to abrogate or
amend them entirely. So far as chap-
ter 61 contravenes or modifies or adds
to any of the provisions of the char-
ter of this city it operates as an
amendment. It takes from the mayor
certain appointive and controlling
powers over the police, and invests
him with the power to appoint the
members of the police board; and it
takes away from the common council
the power to elect the city marshal.
The purpose of the act is apparent
from the act itself. The provision that
the board shall as far as possible be
non-partisan clearly indicates the leg-
islative intent to have been to re-
move as far as possible from the in-
fluence of any one political party the
election of the two particular officers,
the marshal, and the police board,
administration of which are of pre-
eminent importance to the welfare of
the public. No two appointive offi-
cers probably can exercise more co-
ordinate influence in shaping local po-
litical affairs in cities of any magnitude
than the heads of the police and fire
departments, particularly the former;
and the legislature was undoubtedly
governed by considerations of sound
public policy in vesting the control of
these positions, and kindred matters,
in a non-partisan board, appointed
from among the citizens at large and
serving without pay.

"It has been urged that, because in
this city there is no officer known to
the law as chief of police, the act does
not apply. This position too is un-
tenable. A careful consideration of the
act inevitably forces the conclusion
that the terms 'chief of police' and
chief of the fire department have refer-
ence, whether they be known as
chief of police, city marshal, captain,
or by other appropriate title. It has
also been suggested that in this city
the mayor is the chief police officer.
A careful reading of the charter ought
to dispel this illusion. He is no more
the chief police officer in this city
than the chief of the fire department
is in this city. The words are here
employed, because under the char-
ter he is invested with certain pow-
ers of appointment and suspension,
than the police board under the new
law can be said to be such chief officer.
The head of the police force, in other
words the chief of police, in this city
is the city marshal, and there is no
escaping from this fact.
"The foregoing discussion of the
principal question in this case, there-
fore, is, however, another conclusion
reached, and that is that the members
of the board were not legally qual-
ified to act for the reason that four
of them were not appointed in writ-
ing; and that one, Mr. Simpson, did
not file a bond as required by the
city charter until after the election
of the defendant in which his vote
provided the necessary majority. The
records show that the first four mem-
bers of the board were appointed by
the mayor, the appointment orally
announced by him to the common
council and by them confirmed. They
thereupon executed and filed their
oath of office. They also executed and
filed their bonds. All this was in
strict compliance with the law as
it then existed. Indeed more was
done than was necessary. Their
qualification was complete when they
had taken and subscribed the con-
stitutional oath and filed the same
with the city clerk. With the city
clerk. Neither approval by the com-
mon council nor the giving of a bond was
necessary. Mr. Simpson was appointed
under the later act and his appoint-
ment, as then required, was in writ-

ing. He took and subscribed the
constitutional oath of office and filed
the same with the city clerk before
he proceeded to act, and his qualifi-
cation was then complete. The bond
given by him was unnecessary and
it is therefore immaterial when it
was filed. The act creating the board
prescribes the method of both the
appointment and of qualifying and is
applicable throughout the state, and
city charters can neither add to nor
take away from its provisions. So far
as the qualifying of the defendant is
concerned he seems to have per-
formed every act on his part to be
performed. He took and filed his oath
of office and tendered the bond in
his case required by the charter. The
sufficiency of which is not question-
ed. Under the circumstances it was
the duty of the council to approve it,
and their failure to do so in no man-
ner militates against the defendant.
"It follows from all that has been
said that the complaint must be dis-
missed with costs.

highest number of votes in the sec-
ond district and secured the diamond
ring.

Miss Lucile Cullen was an over-
Sunday visitor of Miss Madeline Wil-
son at Evanston, Ill., where Miss Wil-
son is studying music.

The Woman's Relief Corps gave a
6:30 dinner Saturday evening in hon-
or of Thomas Stillman, who leaves
for Tampa, Fla., to spend the winter.
The guests were members of the
G. A. R. and their wives and
ladies of the W. R. C. and their hus-
bands. A short program was given
after the dinner and a most enjoyable
evening spent. All joined in wishing
"Uncle Thomas" a pleasant journey
and a safe return.

PAVING OF SQUARE
UP BEFORE BOARD

Green County Board of Supervisors
Meet at Noon Today for First
Regular Meeting.

(Special to this Gazette.)

Monroe, Wis., Nov. 10.—The county
board of supervisors opened its an-
nual session at the courthouse at
noon today and the board will prob-
ably be in session the remainder of
the week. One of the most import-
ant matters to come up for consid-
eration is the paving of the public
square. The county board, at its last
annual meeting, appointed a commit-
tee to consider the proposition with
a committee appointed by the city
council. The square has been sur-
veyed and the committees will prob-
ably meet tomorrow to reach some
plan to be pursued in paving the
streets around the courthouse. Con-
siderable money is spent each year in
keeping the square in good condition
and it is expected that the pavement
will pay for itself in a few years.
The destiny of three unfortunate
children was decided by the county court Monday.
Maggie Parigo, a 15-year-old
daughter of Calvin Parigo of Cadiz
township, was committed to the state
home for dependent children at Spar-
tanburg, and Mrs. Frank Gardner of
Broadhead, was committed to the
state school for feeble-minded chil-
dren at Chippewa Falls, and Fred

Fashions
And Fads

Pleated skirts have gone out.
Metal buckles appear on many hats.
The one-piece gown has a strong
vogue.

Very large pocket flaps are pre-
dicted.

Satin is the leading fabric for even-
ing gowns.

Many of the new skirts are crossed
in the front.

Wings are larger than they have
ever been before.

Feather trimming upon hats con-
tinues very profuse.

Voluntuous collars are predicted
for the winter.

There are fewer gowns on autumn
hats than last year.

Satin bands and buttons are freely
used on informals.

Black will be much seen, both in
dress and every-day gowns.

One of the novelties of the season is
cloth for evening wear.

Many coats will be semi-fitting and
will extend below the hips.

Six out of ten women prefer broad-
cloth for their street suits.

High laced shoes figure in
many of the winter costume effects.

Shantung silk is being much used
for the making of afternoon frocks.

Young girls are wearing silk and
velvet more freely than ever before.

Lots of the new hats have the Tam-
O'Shanter crown, generally with felt
brims.

Gold and brown, jade green and
coral, will be popular colors in
toggles.

For dinner gowns, just now, net and
tulle seem a bit more fashionable than
last year.

Many chic and durable little collars
are fashioned entirely of liberty satin
ribbon.

Light grey, combined with silver
and steel, is once again a fashionable
evening shade.

Checks and plaids have lost no
favor and will be prominent through-
out the fall and winter.

Flesh color holds first place for even-
ing gloves, and those matching the
gown come next.

PORTLAND, MAINE, CHILD
II, Weak and Emaciated, Re-
stored to Health by Vinol

"Our little daughter, six years of age,
after a severe attack of the measles,
which developed into pneumonia, was
left pitifully thin, weak and emaci-
ated. She had no appetite, and her stom-
ach was so weak it could not retain
food. She lay in this condition for
weeks, and nothing the doctor pre-
scribed did a bit of good, and we were
beginning to think she would never re-
cover."

"At this time we commenced to give
her Vinol, and the effect was marvel-
ous. The doctor was amazed at her
progress, and when we told him we
were giving her Vinol, he replied, 'It
is a fine remedy, keep it up.' We did
so, and she recovered her health and
strength months before the doctor
thought she could." J. W. Flagg,
Portland, Me.

Vinol cures conditions like this be-
cause in a natural manner it increases
the appetite, tones up the digestive
organs, makes rich, red blood, and
strengthens every organ in the body.

The boy smiled, looked importantly at the girl, and went off to remove the stains of tins from his person, and Elleen went, too, turning round to look back at Selwyn.

"Thank you for asking Gerald! I'm sure he will love to go into anything you think safe."

"Will you join us, too?" he called back smilingly. "We may need capital!"

"I'll remember that!" she said, and, turning once more as she reached the landing, "Goodbye—until luncheon!" and touched her lips with the tips of her fingers, giving him a gay salute.

In parting and meeting, even after the briefest of intervals, it was always the same with her; always she had for him some informal hint of the familiarity of parting, always some recognition of their meetings—in the light touching of hands as though the symbol of ceremony at least was due to him, to herself and to the occasion.

At luncheon Nina and Elleen talked garden talk; they both were quite mad about their fruit trees and flower beds.

Selwyn, Gerald and Boots discussed stables, golf links and finally the new business which Selwyn hoped to develop.

Afterward, when the children had been excused and Drina had pulled her chair close to Lansing's to listen—and after that, on the veranda, when the men sat smoking and Drina was talking French and Nina and Elleen had gone off with baskets, towels and pruned shears—Selwyn still continued in conference with Boots and Gerald, and it was plain that his concise, modest explanation of what he had accomplished in his experiments with chocolate seriously impressed the other men.

Boots frankly admitted it. "Besides," he said, "if the lawn people are so anxious for you to give them first say in the matter I don't see why we shouldn't have faith in it—enough, I mean, to be good to ourselves by offering to be good to you, Phil."

"Wait until Austin comes down—and until I've tried one or two new ideas," said Selwyn. "Nothing on earth would finish me quicker than to get anybody who trusted me into a worthless thing."

"It's plain," observed Boots, "that although you may have been an army captain you're no captain of industry—you're not even a noncom."

Selwyn laughed. "Do you really believe that ordinary decency is uncommon?"

"Look at Long Island," returned Boots. "Where does the boom of worthless acreage and paper cities land investors when it explodes?"

Gerald had flung up at the turn in the conversation, and Selwyn steered Lansing into other and safer channels until Gerald went away to find a red.

And, as Drina had finished her French lesson, she and Lansing presently departed, brandishing shining rods adorned with the gaudiest of flies.

In the rose garden and along that section of the wall included in it the rich, dry, porous soil glistened like gold under the sun, and here Selwyn discovered Nina and Elleen busily soiled over the tender shoots of favorite bushes.

A few long stemmed early roses lay in their baskets, Selwyn drew one through his buttonhole and sat down on a schoolbox.

In the rose garden, Selwyn was amply disposed to look on and let the others work.

"Not much!" said Nina. "You can start in and pinch back this prairie climber—do you hear, Phil? I won't let you dawdle around and yawn while I'm pinching my fingers every instant! Make him move, Elleen!"

Elleen came over to him, fingers doubled in her palm and small thumb extended.

"Thorns and prickles, please," she said, and he took her hand in his and proceeded to extract them while she looked down at her almost invisible wounds, tenderly amused at his fear of hurting her.

"Do you know," she said, "that people are beginning to open their houses

"And at other times?"

"No laughing. Oh, I'm past the spooning age. Are you glad?"

She halted. "Yes, because I'm quite sure of you if you are; I mean that I can always keep you for myself. Can't I?"

ADLER'S FRIENDS CHEER HIM.

New Orleans Banker Returns from Honduras for Trial.

New Orleans, Nov. 10.—An William A. Adler, former president of the defunct State National bank of New Orleans, walked down the gangplank of the steamer Ella, when it arrived from Honduras into Monday afternoon, many of his old friends threw their arms around him and kissed him on the cheek, and a crowd of several thousand people, who had gathered to witness his arrival, cheered him repeatedly.

Adler returned to New Orleans in the face of the federal indictment charging him with misappropriating \$238,000 of the state bank's funds, and he had no sooner greeted his friends than United States Marshal Lohsel placed him under arrest. A carriage had been held in waiting and he was driven to the United States court, where Mayor Martin Behrman, former Mayor John E. Fitzpatrick and three prominent business men signed his bond, which was fixed at \$10,000 by Judge E. D. Saunders.

MORSE'S MONEY ALL GONE.

Convicted Financier Swears He Hasn't Enough to Pay His Debts.

New York, Nov. 10.—Charles W. Morse, who, two years ago, was rated as being worth upwards of \$20,000,000, Monday swore under oath that he had not enough money or securities left from his vast fortune to pay his debts.

This revelation was made when Morse's attorneys appeared in the United States circuit court of appeals to argue for his admission to bail. Morse, who has been sentenced to 15 years' imprisonment at hard labor in the federal prison at Atlanta, Ga., was not permitted to leave the Tombs prison when the motion to show cause why he should not be admitted to bail was argued, but an affidavit made by him was read. The motion was argued before Judges Laconbo, Ward and Cox and decision was reserved.

Bald Attempt at Blackmail.

Denver, Col., Nov. 10.—A woman giving her name as Mrs. H. C. Cones Monday afternoon compelled Mrs. Genevieve Chandler Phillips, divorced wife of Lawrence Phillips, the Pittsburgh millionaire, to take her in her automobile to a bank for the purpose of getting \$10,000 that she demanded of Mrs. Phillips on pain of being blown to pieces with dynamite. At the bank Mrs. Cones was overpowered by special officers and placed under arrest.

Spruce Forests in Danger.

Marlinton, W. Va., Nov. 10.—The 140,000 acres of timber land owned by the West Virginia Spruce Lumber Company, valued at considerably over \$7,000,000, is in imminent danger of destruction by one of the worst forest fires in the history of this section of the lumber-producing portion of the state.

Of Interest To Women.

To such women as are not seriously out of health but who have exacting duties to perform, either in the way of house, child, care or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgical knife, would it be believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a medicine of known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol in its make-up. In this connection it may not be out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments that is sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that the "Favorite Prescription" is recommended by a little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. THIS SIMPLE RHEUMATISM RECIPE ALSO SPLENDID FOR THE KIDNEYS.

This is a simple home recipe now being made known in all the larger cities through the newspapers. It is intended to check the many cases of rheumatism, kidney and bladder trouble which have made so many cripples and invalids and weaklings of some of our brightest and strongest people. The ingredients here have been notified to supply themselves with the ingredients, and the sufferer will have no trouble to obtain them. The prescription is as follows: Field Extract Dandelion, one-half ounce; Compound Syrup of Sarsaparilla, three ounces. Mix by shaking well in a bottle. The dose is one teaspoonful after each meal and at bedtime.

Recent experiments prove this simple mixture effective in Rheumatism, because of its positive action upon the eliminative tissues of the kidneys. It compels these most vital organs to filter from the blood and system the waste impurities and uric acid which are the cause of rheumatism. It cleanses the kidneys, strengthens them and removes quickly such symptoms as backache, blood disorders, bladder weakness, frequent urination, painful scalding, and discolored urine. It acts as a powerful stimulant to the entire kidney and bladder structure.

Those who suffer and are accustomed to purchase a bottle of medicine should not let a little inconvenience interfere with making this

RHEUMATISM, no matter how long standing. Any case of inflammation of the bladder or enlarged prostate gland, no matter if the patient has been for years forced to use a catheter. ILLUO POISON IN ANY STAGE. ANY CASE OF DIABETES.

Any case of stricture without loss of treatment. In addition to the above M. I. S. T. No. 2 has cured many cases of Paralysis, Locomotor Ataxia, Mental Trouble, and apparently incurable diseases of the nerves and has restored from the system cancer and numerous growths.

M. I. S. T. has been on the market for over 20 years, and has cured thousands of sufferers. It is prescribed by leading physicians all over the country. It is pleasant to take and absolutely safe. It never increases or diminishes the action of the body.

If you are suffering from any chronic disease you are urged to write to us, no matter how many doctors or kinds of medicines you have tried without relief. WE GUARANTEE TO CURE YOU or refund your money. That you may judge of the value of this GREAT remedy for yourself, we will send you one week's treatment by mail FREE, only asking that when cured yourself you will recommend it to others. Write confidentially to our medical department, giving symptoms. Please box, or six boxes for \$5.

FORTY YEARS AGO

Janesville Daily Gazette, Nov. 10, 1868.—Black Failure.—The Wisconsin State Bank and the Milwaukee County Bank have failed; both are located at Milwaukee. The cause of failure was due to discounting too much wheat paper.

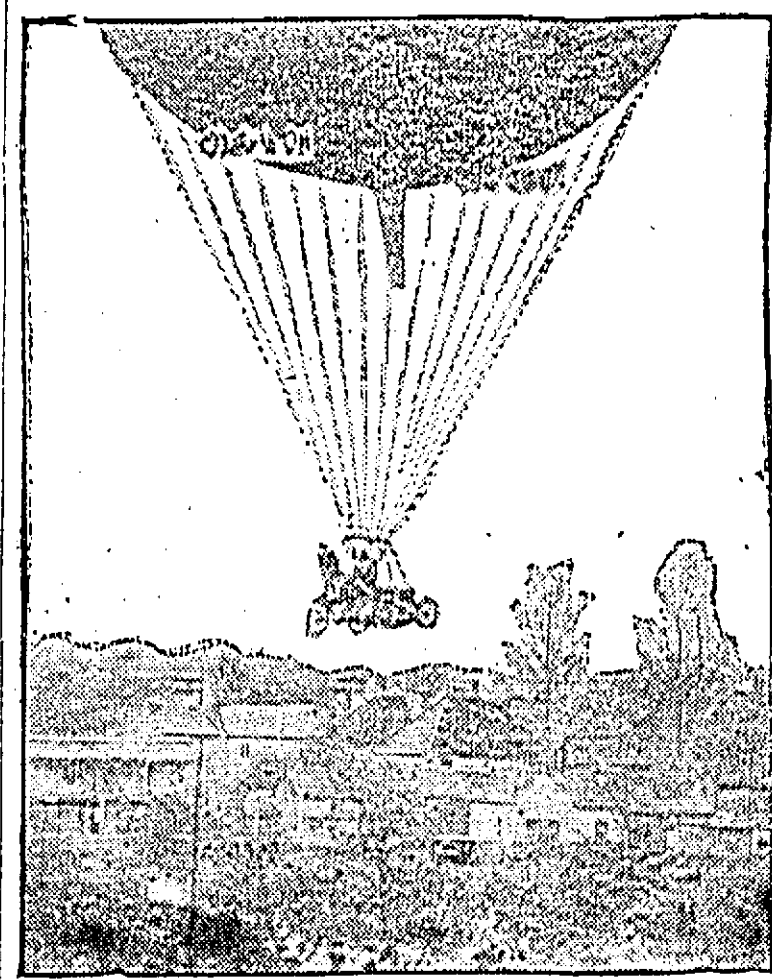

Sunday School Teachers' Institute.—We have encouraging reports in reference to the Sunday School Teachers' Institute for Rock County which commenced its session in this city on Tuesday evening next and continues through Wednesday and Wednesday evening inclusive. Prominent Sunday School workers from abroad have been invited and there is expectation that they will be present. There is reason to believe that it will be an occasion of considerable interest in any event.

Ole Bull.—Probably no man has handled the bow with such sincere delight to his almost numberless audiences as Ole Bull. The exhibition of

his wonderful skill has moved his hearers to tears and anon convulsed them with laughter and everywhere the announcement of a concert by him has had the effect to fill the house. He is to give an entertainment here on Monday evening next.

From London.—The London Times has an editorial giving the basis of the settlement and present status of the question at issue between the U. S. and Great Britain. A mixed commission consisting of two members from each nation will be appointed to judge all questions arising since 1853, the date of the last commission. England's responsibility in the matter of Alabama claims, will be referred to French for arbitration of the decision in favor of America, the commission will then investigate the claims. America has withdrawn the question of the recognition of the Southern States, by Great Britain during the war.

San Juan business will be referred to the President of Switzerland for arbitration.

CARL G. FISHER IN HIS STODDARD DAYTON AUTOMOBILE BAL-LOON TRIP, WHICH PROVED SO SUCCESSFUL LAST WEEK. Indianapolis, Ind.—Mr. Fisher's balloon is the largest of its kind in

the world, having a lifting power of 4,000 pounds. Captain Bumbaugh, the noted aeronaut, who has been instructing Mr. Fisher in ballooning, accompanied him. The objective point was Dayton, Ohio, the intention being to make the 100-mile flight, descend, load the bag on to the deck of the automobile especially prepared to receive it, then drive the car into the city of Dayton.

Every detail of the ascension was successfully carried out. After hovering over Indianapolis for a few moments, a westerly wind caught the balloon and drove it rapidly toward the east. Not daring to risk a descent in the dark, a landing was made just before dark, the great gas bag, under the mastery hand of Captain Bumbaugh, settled slowly to the earth, and when over a corn field the anchor was thrown over, catching in a fence. The auto came to the ground so gently that the passengers did not rise from their seats until after all four wheels were on the ground.

It took but a few minutes to deflate the bag, roll it up and start the car.

Be Ready.

WANTED MALE HELP.

Every man wanting employment of any kind should have his ad. under this heading. This is the place that business men and women look when they want to employ a man. Tell them what kind of work you can do, how much experience you have had, what wages you expect; tell them all they would want to know you could do for them. Change it every three days. If it gets you a position a week sooner than you would have gotten it without the ad. you will be well repaid for running it.
